SOFTWARE COMPARISON

ThunderBolt Software Vs SaaS Products Vs Custom Development

THUNDERBOLT SOFTWARE

TYPICAL SAAS SOFTWARE

Ridiculously Low Cost

- ✖ Not Customisable
- ✖ Do not own the platform
- ✖ Do not own the code
- ✖ Do not own your data
- ✖ Hundreds of thousands of staff from multiple companies using the same server's bandwidth
- ✖ At the mercy of the original developers staying in business

Reasonable One Off Cost

- ✔ Platform is already developed and tested
- ✔ Add-on more software modules as and when required
- ✔ Completely customisable for your business
- ✔ Easily integrate with third party services and software
- ✔ APIs ready for your web developer
- ✔ Only your staff using the server's bandwidth
- ✔ Migrate your current data effortlessly
- ✔ Host on your own servers or one of ours

CUSTOM SOFTWARE DEVELOPMENT

Ridiculously High Initial Cost

- ✖ You will need to think of every feature you want developed
- ✖ You will be responsible for testing the entire system
- ✖ Only Customisable at the time of development
